

The galleries provide an excellent opportunity for students to practice their artistic skills and be inspired by the specimens at a variety of levels. The specimens are an excellent chance to study colour, pattern, texture and shape.

The galleries can be used for:

- Study of still life
- Line drawing and painting
- Photography
- Understanding the cultural importance of specimens and art.

We can provide a variety of opportunities for your students:

- General visit – drawing in galleries
- Short introduction to the galleries and their history
- Handling specimens for close observation in a designated seated space.
