

## Intellectual Property Rights Declaration for visiting scientists/researchers using the NHM Collection

Name :  
Address :

Date:

Brief description of specimens/objects reproduced<sup>1</sup> (the "Items"):

1. In consideration of The Natural History Museum ("NHM") granting me the right to make reproductions of the Items, I assign with full title guarantee to NHM, its successors, licensees and assigns, the worldwide copyright in all reproductions that I make of the Items (where relevant by present assignment of future copyright) for the full period of copyright plus all extensions and renewals of such copyright. For the avoidance of doubt this includes all publication rights in all media by any means whether now known or invented in the future.
2. Notwithstanding that I have assigned the copyright to NHM, NHM agrees that I may use the reproductions, but only for private, personal (including research) or educational purposes (i.e. lectures, temporary displays for which no admission or other charge is made).
3. I understand that should I wish to use these reproductions in any other context, including a commercial context (including without limitation issuing, renting or lending copies of any or all the reproductions to the public) I must obtain prior written consent of The Natural History Museum, London SW7 5BD (via either NHM Image Resources - for photographic reproductions; or the relevant Head of Collections - for all other reproductions), and understand that I may be charged a fee for that privilege.
